Company Profile

WE ARE

WE ARE Our journey began in 1970, crafting wooden seating and furniture for international markets. Over the decades, we have refined innovative techniques while remaining true to our values. Today, the younger generations of the family continue this legacy, combining expertise in craftsmanship, construction and design.

With a professional and forward-thinking approach, we bring precision and passion to every product. As an independent manufacturing company, Cantarutti represents a family-led commitment to quality, wood and design excellence. Recognised for progressive design and high-quality production, our heritage and expertise come together to define a forward-looking vision for furniture manufacturing.

GLOBAL REACH We are dedicated to exceeding industry certification standards for quality, strength and durability across our product ranges, while upholding a strong environmental commitment to sustainable production methods and social responsibility. Our warehousing of raw frames enables us to respond efficiently to high-demand requirements and reduced lead times, ensuring the highest level of service for each of our clients.

Company Profile

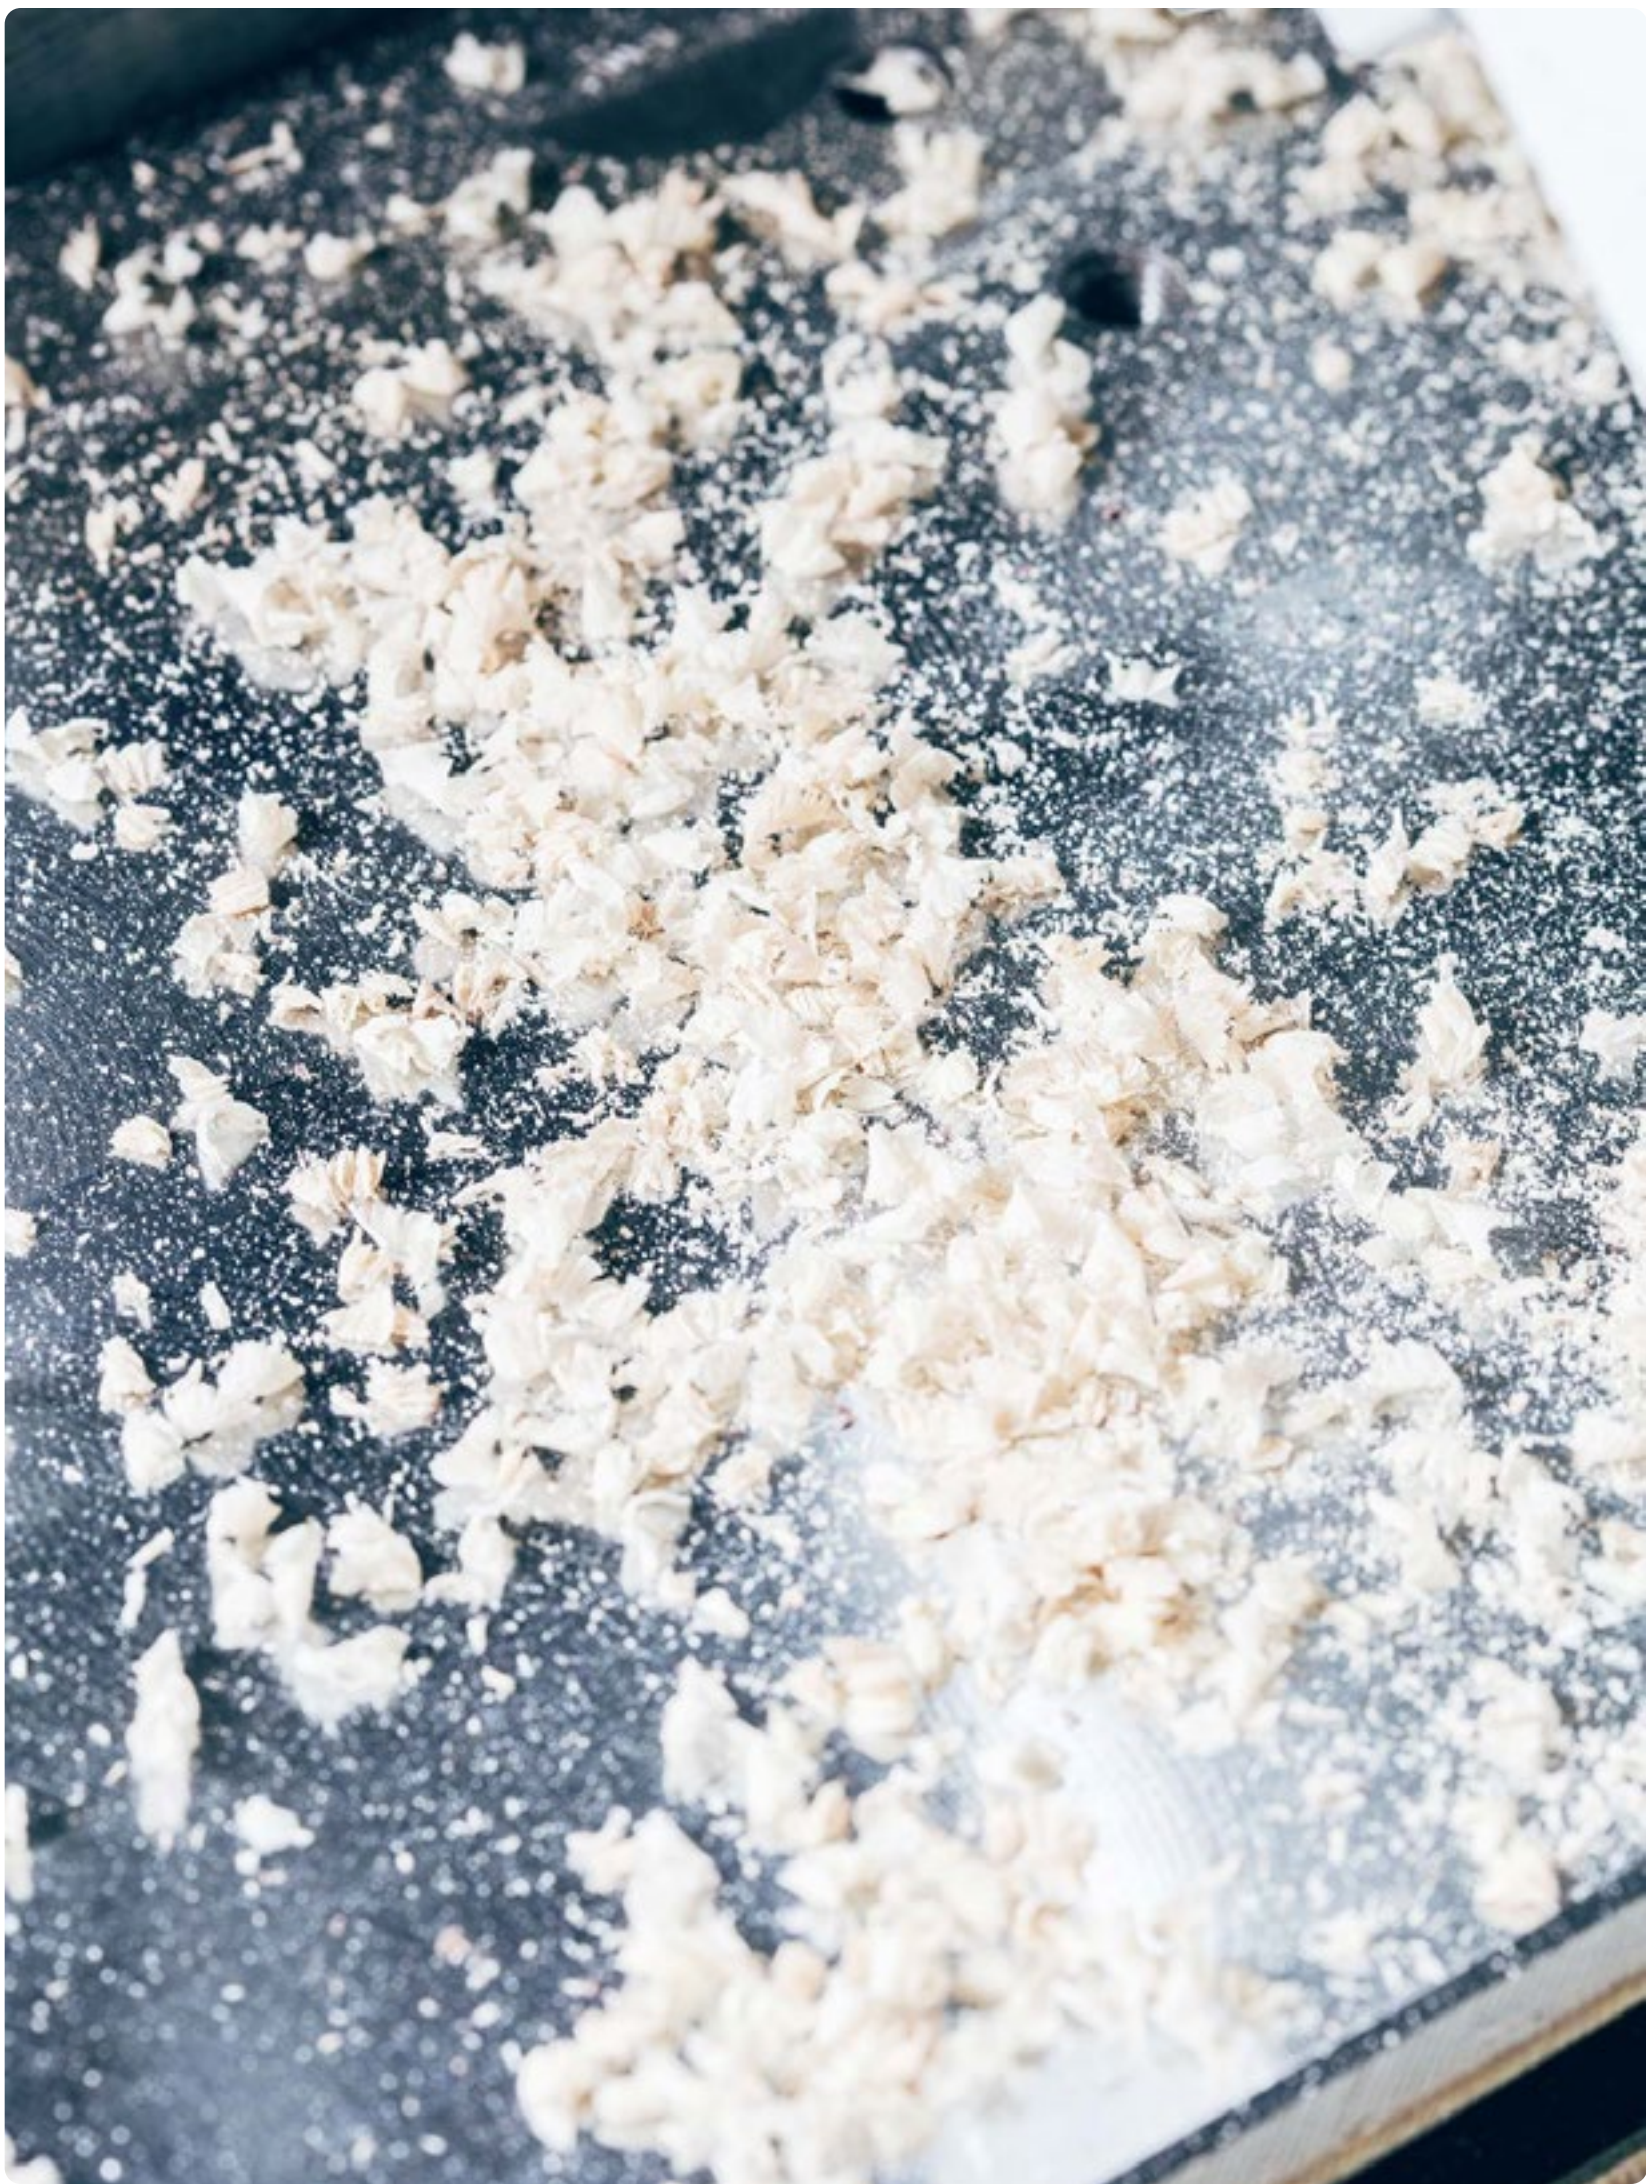

WE MAKE

MADE IN ITALY Our chairs are made in Italy, with the majority of the production process — including prototyping, assembly, staining, polishing and upholstery — carried out in-house. We combine artisan craftsmanship with advanced technology to ensure precision, exceptional quality, and a vast array of customisation possibilities.

[READ MORE](#)

We have invested in cutting-edge machinery and internalised key production processes to maintain greater control over every aspect of our products. This approach allows us to ensure consistent quality and provides our customers with an additional guarantee of excellence.

Our advanced staining system is one of the largest in Europe, with a production capacity exceeding 1,000 chairs per day. It ensures an impeccable finish, meeting the highest standards of the industry.

RESPONSIBLE CRAFTING

Environmental responsibility is a core principle of our production philosophy, reflected in the certifications we have achieved for product sustainability, company organisation, and processes. Since 2019, we have internalised the majority of our manufacturing processes, significantly reducing CO2 emissions and transport of semi-finished products. Investments in advanced machinery, Industry 4.0 technology, and specialised personnel allow us to monitor every stage of production and maximise efficiency. Prototyping, production, painting, and upholstery are all handled in-house, with eco-friendly BIO paints further minimising environmental impact.

Ecological because they are developed with raw materials from renewable sources of waste plant origin, not intended for human nutrition. This is the first line of Bio polyurethane stains for wood that achieves a finish with more than 50% renewables, measured through the Carbon14 dating test and certified by BETA ANALYTICS.

UPHOLSTERY DEPARTMENT Extensive shelving stores our catalogues of premium fabrics and rolls of threads. The department is arranged like a tailoring workshop, equipped with the latest-generation machinery and custom-made patterns. Precision and meticulous attention to detail ensure the highest quality handcrafted finishes.

WE CARE All our chairs are CATAS certified, guaranteeing the highest standards of safety, strength, and durability. Selected models are also registered under the ANSI/BIFMA protocol, reflecting our commitment to meeting international quality and performance standards.

READ MORE

At Cantarutti, sustainability is not just a responsibility, it's central to **WHO WE ARE**. As wood specialists, we are committed to reducing environmental impact and building a greener future.

SUSTAINABILITY at the heart of our craft

In selecting suppliers, our priority is to identify producers who are sensitive and attentive to sustainability, with specific FSC® and PEFC (PEFC/18-32-155) quality certifications depending on their field. They are required to sign and abide by our code of ethics. In addition, our suppliers operate within a radius of 30 km, to limit carbon dioxide emissions.

[READ MORE](#)

ECO-FRIENDLY CERTIFICATION We hold ISO 9001:2015 for quality and ISO 14001:2015 for environmental management. We are award winning in our commitment to this integral element of our products. All our wood is sourced from responsibly managed forests, certified by FSC® and PEFC, supporting biodiversity and protecting precious ecosystems.

Company Profile

WE DESIGN

Our design philosophy recognises the power of creativity to evoke emotions while serving functional purposes. Our collections focus on balanced forms and refined construction details. This approach fosters a strong collaboration with architects and interior designers in the Hospitality and Contract sector, offering tailored solutions that meet both aesthetic and architectural needs.
